To whom it may concern, regarding AB2121 proposed policy,

As an owner of a home at The Sea Ranch, we are concerned about the proposed policy and the impact it will have on the use, enjoyment, and value of our property if it is adopted. We believe the proposed policy should be revised to require that the economic and other impacts to current water users be taken into account. The policy should be evaluated by including burden as well as benefit. Further, the policy should employ science that addresses conditions like those found on the South Fork Gualala River.

We have significant concerns about the staff recommendation. Please do not adopt the policy in its present form without a revision to take into account the burdens described above.

Thank you,

Jon & Laura Harwood
Thank you for your consideration
