

March 26, 2010

TO: State Water Resources Control Board
Members (SWRCB) Fax (916) 341-5620

SUBJECT: COMMENT LETTER-AB 2121 Policy
February 2010 Draft North Coast Instream
Flow Policy. Harmful Effects of the Proposed
SWRCB Instream Flow Policy On The Sea
Ranch's Water Supply.

I request that these comments be made
part of the administrative record for the
Proposed Policy for Maintaining Instream
Flows in Northern California Coastal Stream.

COMMENTS: I have strong objections to this draft
policy, and I need more time to comprehend the impact
of these very complex and highly technical subjects:
Regional Criteria and alternative site specific approach.

I REQUEST AN EXTENSION OF TIME!

I live at The Sea Ranch full time, and own my own
home. SWRCB should schedule workshops in our
region. A 90 day extension could benefit everyone.

This policy in its present form would have drastic
negative impacts on The Sea Ranch water supply. The
Sea Ranch is an exceptional community - we have an
excellent water conservation program now, and very low
gallons per capita per day usage.
