Dear Water Board

In response to AB2121, the State Water Resources Control Board (SWRCB) staff has recommended a proposed policy, applicable regionally, that would have drastic negative impacts on The Sea Ranch water supply. It would leave The Sea Ranch without water supply for days or even months each year. We have owned our home here since 1997, and pay property taxes on time. We get very little in return, and would like to at least count on having water.

Sincerely,

Steve and Mary Beth Stewart
