**Subject:** Proposed AB2121

To State Water Resources Control Board

It is absolutely essential to us, as residents of the Sea Ranch, that proposed AB2121 have no effect on our current water usage. We are frugal users of water from the Gualala River and respect the need to assure the health of the river. If we are allowed less water from the river, the effects will be detrimental to public health and fire suppression and cause extreme deterioration to land values in Sonoma County.

Please be sure that our interests are brought forth and enacted on April 27, 2010.

Cordially

Suzanne Hansen and Barbara Penney
