

# SALTON SEA MANAGEMENT PROGRAM ANNUAL WORKSHOP

MAY 16, 2023 12:00 – 4:00 PM | MAY 17, 2023 5:00 – 9:00 PM

Join us for our annual workshop on the Salton Sea Management Program, which aims to improve air quality and provide habitat for species that depend on the Salton Sea, among other goals. California Natural Resources Agency will update the State Water Board and other interested parties on Phase 1 (2018–2028) of the Salton Sea Management Program and present the Long-Range Plan for beyond 2028. Attendees will be able to provide public comments and learn how various groups are working to address and mitigate environmental impacts from the shrinking, increasingly salty lake.

## Three options for participation:

- 1 In-person:** Imperial Valley College
- 2 Remote viewing:** North Shore Beach & Yacht Club
- 3 Virtual:** Zoom and webcast

Spanish interpretation will be provided. Learn more about the Salton Sea and how to join the two-day workshop at: [waterboards.ca.gov/saltonsea](https://waterboards.ca.gov/saltonsea)
