**Subject:** Thermal Curtain

Hi, Peter,

Anybody who spends time on Lake Almanor fishing knows how much damage is going to occur to that habitat on the lake by drawing out the cold water. Anybody who fishes the river system below knows how negligible this project is going to be. I think it would be much more worth your while to go build a couple of more dams in California so we have enough water. I look forward to the decision because this will all be a matter of public record and scrutiny and judgment.

Thanks,  
Paul
