Subject: Save Lake Almanor

Please stop the thermal curtain.I've been fishing Lake Almanor for over 50 years it's one of the most productive Lakes Northern California,the economy of Lake Almanor depends on the lake.they must be thousands of fishermen and their families come to visit Lake Almanor your yearly. If you mess up this Lake,Chester in the Lake Almanor community will die.we seen this happen a few years ago when PG needed to take lake down .The resorts and the grocery stores and gas stations and sporting-goods stores in auto parts stores in the marina services involved also,The residence and businesses depend on the fisherman and their families to go camping in hunting And stay at the resorts hotels and motels not mention the rental properties that most of us stay in when we come to visit Lake Almanor CA please rethink your decision and help save us Lake Almanor it's one of the most beautiful lakes and all of Northern California I personally spend 2 to 3 months or year fishing Lake Almanor with many friends and family members,thank you for your time David A.Brumett
