Subject: Lake Almanor

Concerning lake Almanor cold water pool. The proposed plan reducing the cold water pool in lake Almanor will cause a warmer lake temperature and increased algae blooms impacting both humans and fish. We do not want to end up with another warm water clear lake where fish are not safe to eat. Where is the environmental justice in damaging one area lake Almanor for questionable improvement any thing down stream. PLEASE CONSIDER THE IMPACT THIS WILL HAVE ON LAKE ALMANOR AND SUROUNDING AREAS.

Thank you Danney C Meyer
