Subject: RE: Save Lake Almanor

Peter,

I am a property owner at Lake Almanor and I am opposed to the thermal curtain plans for Lake Almanor. Exporting most of Lake Almanor's cold water to achieve a marginal benefit far downstream will destroy the cold water fishery in Lake Almanor. The cold water export will also result in a warmer lake and increased algae bloom, impacting both fish and humans.

I cannot see the sense in destroying the Lake Almanor eco system so that a small temperature rise might be achieved downstream. Please consider my concerns and the concerns of my neighbors.
