RE: Draft EIR, PG&E Certification UNFFR Project NO2105

Dear Mr. Barnes,

My family has been coming to the Lake Almanor area since the early 20's. We have built and bought property in the area. One of the major attractions is the beauty of Lake Almanor. In the report I have read, I do not find a concrete & specific impact(s) this Draft EIR. In short, both my wife and I are opposed to both Alternatives 1 & 2 as described in Draft EIR. Therefore, we are recommending that the State Water Board to consider only the PG&E project as submitted and approved in the Settlement Agreement of April 22, 2004. In addition, cold water should not be released from Lake Almanor!

In conclusion, many thanks for receiving and taking in consideration our thoughts on this matter.

Sincerely,  
Steve & Jane Eimers
