Subject: Almanor Thermal Curtain

Hello Peter – I'm sending in my comments regarding the proposed thermal curtain for Lake Almanor. I have a house on the Peninsula and am an avid fisherman. My family I and are up at the lake 25 to 30 times a year, most of the time we are fishing. I have two kids a 9 year old and 5 year old that cannot wait to get on the lake and catch "their" trout and salmon. We are absolutely opposed to removing any of the water from this wonderful lake. Our house has been in the family for 40 year and we're hoping it stays for another 40, and fishing is one of the main reason we travel to the lake

Please stop the Thermal Curtain proposal, it would damage a wonderful lake.

Regards,
Terry
