Subject: Save Lake Almanor

Mr. Barnes

As a lifelong resident of the Westwood/Chester/Lake Almanor area I'm concerned about the possibility of the thermal curtains being installed at Pratsville.

Being an avid fisherman enjoying Lake Almanor both summer and winter I would hate to see the effect the curtains would have on the lake.

How can there be "no significant impact" on Lake Almanor when its cold water fishery will be dramatically reduced? Also, where is the environmental justice in damaging one area, Lake Almanor, for a questionable improvement in the Feather River?

I'm just expressing my feelings as a concerned fisherman that has spent all my life fishing Lake Almanor as a child and throughout my adult years. I would hate to see any further put upon the Lake.

Thank You
David M. Floyd
