Subject: save lake almanor

Dear Mr. Barnes,

As you are aware there is great opposition to the State Water Board plans for a thermal curtain on/at Lake Almanor. I have been a resident at Lake Almanor for 26 years. Next year I will be eight years old. Lake Almanor is my home and my only asset.

A program as the (SWRCB) is proposing would no doubt further devalue my property and drive remaining business and services out of Lake Almanor.

I am opposed to the water board staff recommendation in the draft EIR.

David Galpine
Lake Almanor
