Subject: Thermal Curtain

Hello Mr. Barnes,

I do not support the use of thermal curtains in Lake Almanor! I am a member of the Almanor Fishing Association and each year feed 50,000 Eagle lake Rainbows from October to May. I also fish in the lake and enjoy the lake. During the summer months our fish currently get parasites when the lake warms and if you take more cold water out I believe it will ruin our fishery! No to Thermal Curtains. Their must be a better way to solve down river warming like trees along the river for shading.

Respectfully,
Henry Gronroos
