**Subject:** Lake Almanor Thermal Curtains

Peter,

I am writing to express my opposition to the Lake Almanor Thermal Curtains. Despite the attempt to clarify its importance in the draft EIR, I remain unconvinced that the scheme will benefit the fisheries below the lake. Further, I lack trust that the impact to Lake Almanor's fisheries will be "less than significant". The draft EIR seems to focus primarily on issues of least concern while neglecting to address economic impacts as well as impacts on the most common wildlife particularly water birds.

Please count me as one in opposition to this costly project of dubious benefit.
