Subject: RE: SAVE LAKE ALMANOR

Good Morning Mr. Barnes,

We have been residents of Lake Almanor for the past 15 years, and it is with much dismay that we have found that the plan to remove cold water from our precious Lake Almanor is once again being considered. I do not understand the justification of damaging one area, Lake Almanor, for a very questionable improvement elsewhere.

Reducing the cold water pool in Lake Almanor will no doubt result in a warmer lake and increased algae blooms. This will not only impact fish but will also have a very negative financial impact on people who own property around the lake.

We are opposed to the Water Board staff recommendation in the draft EIR.
