Subject: Lake Almanor Water

To CA State Water Board:

Plumas county has been in a recession and has not been able to turn the economy around due to the rural location and high unemployment rates. We are just starting to see the tourism business return and the housing market to rise. By pulling the cold water out of Lake Almanor, you will destroy the fishing , which is one of the few good tourism draws to the area for summer recreation. Our local businesses depend on the summer tourism in order to survive throughout the year . STOP this nonsense of a thermal curtain!!!! You will KILL OUR LAKE!!!!
