**Subject:** Lake Almanor

We are opposed to the Water Boards staff recommendation in the draft EIR. We feel that exporting Lake Almanor's cold water pool to achieve a marginal benefit downstream would be a ecological disaster to our local environment. We enjoy fishing in Lake Almanor and this exportation would greatly affect the cold water fishery and fishing in general in Lake Almanor. Decreasing the cold water pool in Lake Almanor will result in warmer water temperatures, affecting fish and algae blooms. We ask that you do not export Lake Almanor's cold water pool.

Sincerely,

*William and DeeAnna Keck*
