Subject: Lake Almanor Thermal Curtain

Dear Mr. Barnes

Big Government is always trying to change things by spending other peoples money even when the majority don't want the change. Here we to again. Before Great Western and PG&E built dams along the North Fork Feather River, it's fish some how got along just fine even in the warm summer months PLEASE don't mess up our beautiful Lake Almanor leave it alone. Thank you.

Respectfully, C. Phillip Kelly Jr.
