Subject: Save Lake Almanor

To Whom it May Concern,

I am writing to you today to let you know that I oppose the Water Board staff recommendation in the draft EIR.

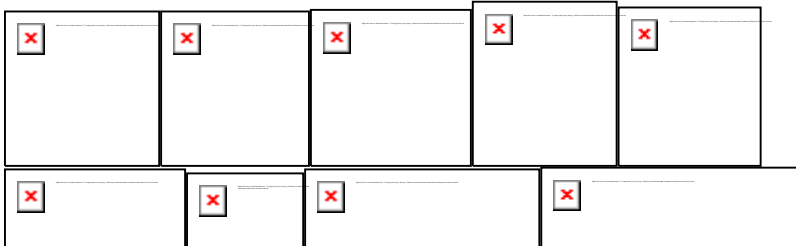

I have recently completed building a home located within the Country Club community at Lake Almanor. I do not want most or all of Lake Almanor's cold water pool exported, as it would only achieve a marginal benefit far downstream, plus or would be an ecological travesty. It is important to me that Lake Almanor remains in the state it is currently in, as that is one of the main reasons I chose to build my home at Lake Almanor.

In an era of climate change concerns, intentionally increasing the temperature of Lake Almanor is completely contrary to sensible practice, and something of which I am in complete opposition.

Please take my comments seriously, and reconsider what you are considering doing, which will definitely harm this beautiful Lake.

*Thank you,
Liane*
