Subject: Lake Almanor Thermal Curtain

Dear Mr. Barnes,

I have been a full time resident of Lake Almanor since 2003, and I am OPPOSED to Alternatives 1 & 2, as described in the Draft EIR. I believe that pursuing these Alternatives is unreasonable, irresponsible, and reckless. I urge the State Water Board to only consider the PG&E project, as submitted and approved in the Settlement Agreement of April 22, 2004, **without the additional release of cold water from Lake Almanor.**

Sincerely,
Dawn Neal
