Subject: Lake Almanor Thermal Curtain

Dear Mr. Barnes,

As 22 year residents of the Lake Almanor area we are strongly opposed to Water Board staff recommendation in the draft EIR.

Exporting most or all of Lake Almanor's cold water pool to achieve a marginal benefit far downstream would be ecological travesty.

Reducing the cold water pool in Lake Almanor will result in a warmer lake and increased algae blooms, impacting both fish and humans.

Please reconsider the impact of this action as it will ruin the aesthetics of the lake region and have devastating affects on an already struggling local economy.

Sincerely,
John and Barbara Pescio
