**Subject:** Lake Almanor

Hi Peter, My name is Gary E. Peterson and I have a house on Lake Almanor. I know that you have a heavy load on your shoulders about the thermal curtain. I am asking you to turn down this proposal for the many reasons that you have already know about. I recently went to a meeting about a project that was to be done on a wildlife preserve in my city. It was to be for the purpose of getting input of our community. As it turned out it was a done deal. The city had already signed contracts with this group. What the community had to say meant nothing. How terrible was that? I urge you and the board to listen to the community fairly. Please let your name be known as one that saved lake almanor. I am just a home owner and I don't speak for anyone else. I will be praying for you, not against you. Thank you so much for listening. Gary E Peterson
