Subject: Cold Water Curtain - Lake Almanor

Mr. Peter Barnes, Engineering Geologist
State Water Resources Control Board

March 22, 2015

Please leave Lake Almanor, California alone. Government is trying to take over so many things, which may or may not prove out.

You cannot out-smart "Mother Nature"! Hands off of our water.

Go do something which has a good chance of turning out.

Sincerely,

DARYL & KAREN SCHMIDT
