[Edit](#)**Lake Almanor**

March 25, 2015 at 8:21 PM

Sir I'am opposed to thermal curtains in Lake Almanor and Buttlake .

Lowering water temperature for an area of river that has no fish left and not enough water flow with to keep appropriate oxygen levels up is ridiculous.

Based on current models how we could be in for extended drought throughout many years to come in the western United States we can't afford ridiculous decisions that effect water .

I'am a property owner at Lake Almanor and I strongly oppose thermal Curtains !!
