Subject: Draft EIR/LakeAlmanor

I'm opposed to our lakes water being sent down stream, the fish in Lake Almanor are just as important as any fish down stream that May or May not benefit from it. Lake Almanor and surrounding areas depend on tourist that come to area to enjoy the lake. Which would be drastically effected if the lakes cold water is sent down stream by increased algae growth and fish decline both of which would impact humans enjoyment of the lake.
