Dear Mr. Barnes,

I am writing you today to ask you to reconsider every decision to remove cold water from Lake Almanor.

If this happens I believe it will have a significant impact not only on the fish in the Lake but will also increase the growth of algae, etc. I have been coming to Lake Almanor since I was a child and my grandparents and parents retired at the lake. I would hate to see it changed by this removal of the cold water.

Consider the cost and ~~and~~ the questionable lowering of 3 degrees Celsius down the Feather River.

Please do not do this.

Sincerely yours,
Betty Anne Mahoney
