STATE WATER RESOURCES CONTROL BOARD 3792 Lake Almanor Dr

2015 MAR 23 AM 10:41 Lake Almanor, CA 96137

DIV OF WATER RIGHTS SACRAMENTO 20 March 2015

Peter Barnes, Engineering Geologist,

I am opposed to the Water Board staff recommendation in the draft EIR.

The Feather River not is known, historically, as a trout fishery. Therefore, it seems inappropriate to take cold water from Almanor to cool a river that does not have a reputation for fishing.

The detriment to Almanor far exceeds the benefit to the Feather.

Sincerely,
