Subject: Re: WR 2009-060 Condition 2 Meeting Yesterday.

Dave,

I understand your frustration and strong desire to control the dialog but you are not the arbitrator of what "an informed discussion" is or should be. And, for the record, I am fully informed about the December 13 Condition 2 meeting and am even more familiar with the District's agenda to void Condition 2. As I recall, you spoke for approx 90% of the time at the December 13 meeting. I hope you don't feel too threatened when I comment as well. You are also welcome to review the several comment letters I have previously submitted regarding this issue (see link below).

http://www.swrcb.ca.gov/waterrights/water_issues/projects/california_american_water_company/docs/colett_090716.pdf

As I stated in my previous email, I disagree with your proposal and justifications to use "paper water" as a proxy for "wet water" demand. Further, in the context of an ongoing cease and desist order, your proposal and justifications are truly remarkable. I will oppose your proposal in a follow up comment letter and thank you for your email.

Regards,

Luke Coletti
